Reporting

From monthly statements to reconciliation, you'll have access to all the business tools to measure and manage accounts in a click.

• [Learn more about reporting](#)

Refunds

PayPal takes the hassle out of refunding. You can do partial and full refunds.

➔ [Learn more about refunds](#)

Disputes, claims and chargebacks

Reduce the likelihood of buyers complaining or stopping their card payment. And if they do, learn how PayPal could help.

➔ [Learn about disputes, claims and chargebacks](#)

Transaction fees

You always know where you stand with PayPal. No set up costs or cancellation charges.

Multiple currencies

Do business with the world simply and securely in 24 foreign currencies at very competitive exchange rates.

Manage my PayPal account

Look after everything from one account in a few quick clicks. Free to use and with PayPal Express Checkout, Website Payments Standard and Digital Goods there's no monthly or cancellation

Professional services

Take payments and invoice customers for your services

Sell your services online the safer, easier way

Whether you're a fitness instructor or a financial advisor, a wedding planner or a divorce lawyer, a hairdresser or a pet groomer, PayPal is a more secure, faster and simpler way for your customers to make payments online for all the great services you provide*.

Turn your website into an online business today

Our very popular [Website Payments Standard](#) can turn your website into an online business in minutes - and you don't need to be a web guru to do it:

- Accept payments securely through your website.
- No set-up charge or monthly fees.
- Start selling today with only a basic understanding of HTML.
- No need for a merchant facility to take payments.

Around Australia and the world, millions of service providers make money using PayPal's easily recognised and trusted buttons.

Protection

PayPal helps protect against fraud and claims

Feel safe to sell online

It's our business to protect yours

Running a business is stressful enough without worrying about the safety of your information and transactions. So we have in-house experts and world-best technology to do that for you.

Six 'great walls' of fraud protection

1. Anti-fraud risk models

PayPal's in-house technology can help predict problems before they happen, as well as detect if you've been a victim of fraud.

2. Proving your identity

Just like a bank, we may need to confirm the identity of our customers. We try to keep this process as easy as possible for you - you might not even have to do anything! By asking for [Proof of Identity](#), we can continue to keep online shopping safer for all our businesses and customers around the world.

3. Your information is encrypted

The personal and financial information stored in your PayPal account is encrypted and protected to ensure seller protection.

Send and request money

Sending money is safer and easier with PayPal

On your computer or mobile phone

Asking friends to pay you back is no longer embarrassing. It can even be fun with the PayPal mobile app!

On the move and around the globe

From your phone or mobile

You can send and request money for all your needs from your computer or on your iPhone, Blackberry or Android when you're on the go.

International online payments

It's not just safer and easier to send payments to, and request money from, people and businesses in Australia - more than 190 million people around the world prefer using PayPal too.

Your information is safer

We never share your financial details

PayPal lets you receive and send money with just an email address or mobile number. So you'll never need to share details of your bank account, credit card or debit card when you make payments.

You're protected

Our in-house experts and world-best technology keeps your information and transactions safer. We may also [protect your eligible purchase](#) in the unlikely event that something goes wrong.

Getting started is free and easy

Setting up a PayPal account is completely free. You don't even need to transfer money into your account before you can start making online payments.

[How to get started](#) ▶

Millions of people shop and pay with their phones and other mobile devices. Whether you're on the move around town, Australia or the world, PayPal mobile makes it safer and easier for you:

No one sees your bank or card details

When you pay by mobile with PayPal, you don't need to share your financial details with online store or sellers. And your information isn't stored on your phone so you're still protected if you lose it.

You're protected from fraud
